Abstract

Chapter 1

Introduction

This is the introduction content. I'm citing the Ace Lake paper (Lauro *et al.*, 2010) and the PLoS paper about the Gulf of Maine (Li *et al.*, 2011).

Chapter 2

The Polar Front as a major biogeographic boundary in the Southern Ocean

This is the content of the Polar Front chapter.

Chapter 3

Meso-scale biogeographic drivers of planktonic diversity

Chapter 4

Conclusions
